

Rotageek from O<sub>2</sub>

# Solve complex scheduling issues with a simple digital tool

Still suffering the pains of paper rotas and high-maintenance spreadsheets?

Time for a fresh start. Rotageek's easy-to-use scheduling software removes admin headaches, giving managers a better way to organise and share work shifts online – anytime, anywhere.

**65%** of retailers say it's crucial to get the right people with the right skillsets working at the right time\*.

## 5 ways to make sure work really works

Digital disruption is reshaping the way we all work. Rotageek's smart scheduling software is part of the revolution and is built to overcome traditional scheduling pains.

### Scheduling

**How do you get the right people working at the right time?**

Plan efficiently and effectively by creating and deploying rotas. And get instant access to essential info like budgets, footfall forecasts and contractual agreements on staff hours.

### Adjustments

**How do you fill gaps in your rota – without the usual fuss?**

Make adjustments like last-minute sick leave online anytime, anywhere. And let staff register interest in scheduling gaps as soon as they come up, so you can sort them just as fast.

### Self-service

**How do you make sure it's okay when life gets in the way?**

Make it easy for staff to check and swap shifts when they need to. Directly from web or mobile apps, at a time and place to suit them – without taking up valuable managerial time.

### Reporting

**How do you monitor staff movements without clock-watching?**

Use a range of clock-in/clock-out solutions to suit your needs. From in-app mobile check-ins to facial recognition on tablet interfaces or PIN logins. Check time & attendance features at a glance and stay in control of your rotas.

### Payments

**How do you record staff hours and ensure accurate payments?**

Export time & attendance records to a host of payroll solutions, so you can be sure of accurate payments to your staff – even when rotas are changing regularly.
